Medical Necessity

Statement of Medical Necessity: Qutenza® is medically necessary for the above-referenced patient. It is my intention to treat the above-referenced patient with Qutenza® therapy, a drug indicated for the management of neuropathic pain associated with postherpetic neuralgia (PHN). It is my opinion that Qutenza® therapy is the most appropriate treatment available for the above-referenced patient. I verify that the patient and prescriber information contained in this enrollment form is complete and accurate to the best of my knowledge and that I have prescribed Qutenza® based on my professional judgment of medical necessity. Once approved by me, I authorize Acorda Therapeutics®, Inc. or its affiliated companies or subcontractors to forward this prescription electronically, by facsimile, or by mail to a dispensing pharmacy selected by the QRSS. I also authorize QRSS to perform any steps necessary to obtain reimbursement for Qutenza® including, but not limited to, insurance verification and case assessment. I understand that QRSS may need additional information, and I agree to provide it as needed for the purposes of reimbursement.

Prescriber's Full Signature: _____ (No Stamps or Initials)	Date: _____

Instructions for Completing the Qutenza[®] (capsaicin) Reimbursement Support Form

Phone: 1-877-900-6479, Option 3

Fax: 1-877-304-1045

Please write legibly and complete all required fields to prevent delays. This instruction sheet may be used for guidance to assist in the completion of the form.

1. Collect Patient Information

Please provide the following information:

- Demographic Information including Name, Address, Phone Number
- Date of Birth
- Patient Last Day of Treatment or Initial Treatment

Insurance information, including enlarged copies of patient's insurance cards:

- Primary insurance
- Secondary insurance

Communication with Patient:

- Sharing information regarding your patient's benefits

2. Complete Healthcare Provider Information

Please provide the following information:

- Demographic information including Name, Address, Phone Number, and Site of Service
- Office contact name and telephone number
- License and provider numbers

3. Complete Treatment Information

Please provide the following information:

- Provide the ICD-10 code
- Provide application codes
- Complete and sign the prescription

4. Sign Statement of Medical Necessity & Authorization to Release Patient Information

The authorization allows the Qutenza[®] Reimbursement Support Services (QRSS) to investigate the patient's insurance coverage acting on behalf of the physician.

In order for the program to provide benefits investigation and reimbursement services, we must be authorized to use patient information. The requirement may be satisfied by the patient completing a HIPAA Authorization to Disclose Information form or by the HCPs office executing a Business Associate Agreement (BAA) with Premier Source, the administrator of QRSS. The HIPAA Authorization to Disclose Information form and the BAA can be downloaded from the Qutenza website at www.qutenza.com.

5. Fax completed form to: 1-877-304-1045

6. QRSS will fax a benefits investigation document to your office for you to determine next steps.

Please see Indication and Important Safety Information on the next page.

INDICATION

Qutenza[®] (capsaicin) is indicated for the management of neuropathic pain associated with postherpetic neuralgia (PHN).

IMPORTANT SAFETY INFORMATION

Only physicians or healthcare professionals under the close supervision of a physician are to administer Qutenza.

Contraindications: None.

Warnings and Precautions:

- Do not use on face or scalp.
- Aerosolization of capsaicin can occur and inhalation may result in coughing or sneezing.
- If skin not intended to be treated comes into contact with Qutenza, clean area using Cleansing Gel.
- Patients may experience substantial procedural pain. Prepare to treat pain with local cooling (such as a cold pack) and/or appropriate analgesic medication.
- Transient increases in blood pressure may occur during and shortly after the Qutenza treatment. Blood pressure changes were associated with treatment-related increases in pain. Monitor blood pressure and provide adequate support for treatment-related pain. Patients with unstable or poorly controlled hypertension or a recent history of cardiovascular or cerebrovascular events may be at an increased risk of adverse cardiovascular effects. Consider these factors prior to initiating Qutenza treatment.
- If opioids are used to treat pain associated with the application procedure, please note that opioid treatment may affect the patient's ability to perform potentially hazardous activities such as driving or operating heavy machinery.

Adverse Reactions: In clinical trials, serious adverse reactions included application-associated pain and increase in blood pressure. The most common adverse reactions ($\geq 5\%$ and greater than control) were application-site erythema, application-site pain, application-site pruritus, or application-site papules, and nausea.

These are not all the side effects of Qutenza. You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.

Please review the Full Prescribing Information available at http://www.qutenza.com/docs/qutenza_full_PI_.pdf.
